SUMMARY

A dedicated, versatile and eclectic ministry professional with a strong background in pastoral ministry, media production, and operations management. With such a diverse work history and skill set, I'm eager to discuss my unique experiences and skills in an interview.

I've been married to my wife, Megan, for 15 years and we have 3 daughters and two dogs.

I hold a Master of Divinity in Pastoral Ministry with a focus on pastoral counseling and have served as an Associate Pastor for over a decade, where I significantly grew youth and young adult ministries and managed media operations. My experience spans various roles, including leading content creation for a startup marketing agency, owning and operating a real estate media business, and providing hands-on support for rural real estate development.

In 2021, I took a unique opportunity to travel full-time with my family, enriching our lives with new experiences while exploring the world together. My diverse skill set includes multilingual communication, various trades and mechanical skills, pastoral counseling and a deep commitment to serving others. Whether managing complex logistics, creating compelling visual media, or providing compassionate pastoral care, I bring a blend of creativity, technical expertise, and leadership to every endeavor.
